Subject: Application for Standing before the Commission of the City of Mississauga Judicial Inquiry

Dear Mr. McDowell,

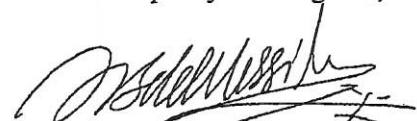

This is a written request to stand before the Commission of the City of Mississauga Judicial Inquiry as per the call published in Mississauga News Dec 5<sup>th</sup> issue.

I am a tax payer and a residence of the City of Mississauga who would like to be granted the right to take part in the proceedings of the subject inquiry.

I would like to request the appointed Commissioner the Honourable J. Douglas Cunningham to establish relevancy of including in the inquiry the December 2000 Ensource Shareholders Agreement. If there is no connection between the two subject transactions I would like to request the Commissioner exclude the Ensource Shareholders agreement from the inquiry and ask the City to request a separate inquiry to deal with any issues related to the Ensource Shareholders Agreement, if justified and agreed to by the City Councillors.

Including the December 2000 Ensource Shareholders Agreement in the inquiry, if it not relevant to the issues in connection with the acquisition by the City of Mississauga of the approximately 8.5 acres of land in the city centre, will complicate, prolong and make the inquiry more expensive to the taxpayers. That agreement was made under the deregulation of the electricity market by the Provincial Government at that time and many town hall meetings and consultation with financial consultants took place before any decision was made. All decisions made at that time was voted on by the City Councillors and there were no issues related to misconduct during the decision making process. I still have the video tape of one of the town hall meeting held by the City at that time to discuss weather to sell or keep our Mississauga Hydro currently Ensource.

Please accept my best regards,
